

HW14

B09901066 謝承修

1.

It shows that the given five methods (EWC, MAS, SI, Rermanian Walk, SCP) have different performance, and it seems that the result of RWalk is the best.

2.

```
output.pow_(2)
loss = torch.sum(output,dim=1)
loss = loss.mean()
loss.backward()
```
